Hoover Plan Will Stimulate Domestic Business

COMES THROUGH A CHANGE OF MASS PSYCHOLOGY

COTTON TAKES SPURT SHARPLY, AND OTHER RAW MATERIALS AFFECTED

MORE EMPLOYMENT AND GREATER CONFIDENCE IN OUT-LOOK MAY FOLLOW

By RAYMOND CLAPPER (United Press Staff Correspondent)

Washington, June 25.—Success of President Hoover's war debt and reparations holiday proposal is regarded by government economists as an exceedingly important factor in domestic business recovery.

Some indications of what the proposal means to business in the United States, and by the same token to world business in general, was given by Dr. Julius Klein, assistant secretary of commerce and one of the country's foremost economists, in an interview with the United Press.

"The benefit of the president's plan so far as business in the United States is concerned will come largely through a change of psychology which is already apparent," Dr. Klein said. "We have seen cotton take a spurt sharply and other raw materials to a lesser extent, since the president's plan was announced. The moment it appears that the bottom of the price curve in raw materials has been reached and that an upturn has taken place, then we can be sure the cycle has taken a new trend because buying of raw materials will immediately begin.

"Manufacturers will have to expand operations to work this raw material. The resulting employment and greater confidence in the outlook will encourage retail buying. Soon the whole economic organization will be working in response to the new stimulus.

"That is just what we may expect to take place from this situation if it works out successfully. Confidence in Germany's financial situation is of supreme importance just now. It means much whether Germany is allowed to drift downward or whether her condition is sufficiently secure so that our investors feel warranted in advancing loans for constructive purposes and there is confidence in extending credit."

Dr. Klein believes the recovery will rest on an upward turn in raw material prices such as is now following from Mr. Hoover's efforts concerning reparations.

"An upward run of prices accelerates consumption at once," he said. "It releases the logs in the jam. The minute there is confidence prices have reached bottom, buying will start up in cotton, copper, rubber, silk, tin, lumber and such raw materials, resulting in a reawakening of industries using those commodities.

"In a situation such as the one we are in, I would prefer to watch commodity prices as an index rather than stock prices."

One tire manufacturer is reported in press dispatches as preparing to increase prices 3 to 20 per cent, copper went up a quarter of a cent a pound yesterday, cigarette prices are being increased by some companies, cotton trading shows optimism, and the stock market shows further gains, with U. S. Steel crossing 100 for the first time in a month. Yet car loadings are considerably below last year. The Pennsylvania railroad has reduced its dividend, an event of wide effect because Pennsylvania stock is so extensively held in small lots, and salaries of its general officers have been cut ten per cent. These are factors which have some depressive effect upon sentiment, which generally speaking has gained considerable confidence as a result of the Hoover proposal.

Madison, Wis., June 25.—Sen. Robt. M. LaFollette of Wisconsin informed President Hoover today that he believes a special session of congress should be called to act on the question of international debt postponement. "I shall support legislation to carry out the proposal," LaFollette said, "but it is my conviction that congress should be called in extraordinary session to act directly upon this proposal and on other pressing economic issues."

Bomb Demolishes Front of a Miner's Home in Cannonsburg

Pittsburgh, June 25.—(U.P.)—A bomb demolished the front of a miner's home in Cannonsburg, Pa., today while additional state troopers patrolled the western Pennsylvania bituminous coal strike field. No one was hurt.

PHILADELPHIA LAWYER NEEDED TO UNTANGLE THIS

Los Angeles, June 25.—(U.P.)—Albert Weller, 51, unsuccessful in a reconciliation with his wife, wanted to die, so he fired two shots into his head. Two police officers, thinking he was firing at them, fired a third shot. He died.

Today a coroner's jury will delve into these puzzling questions surrounding his death.

By attempting suicide, Weller was committing a felony, so were the officers justified in shooting him, although he already had wounded himself?

If the shot discharged by the police was the cause of his death, should the officers be accused of manslaughter?

Weller had gone to see his estranged wife. She called the police, and Weller hid in a dark alley. At the approach of the officers, Weller fired two shots. Only the flashes could be seen, and the officers opened fire.

MRS. JULIA GARVEY IS ACQUITTED OF GRAND LARCENY

HAD PROMOTED A GASOLINE SUBSTITUTION FORMULA SCHEME

JURY AT ST. CLOUD FINDS HER NOT GUILTY AFTER 23 HOURS OF DELIBERATION

St. Cloud, Minn., June 25.—(U.P.)—Mrs. Julia Garvey, St. Paul, today was acquitted on a charge of grand larceny in the second degree in connection with her promotion of a gasoline substitute formula scheme.

A county district court jury found the woman inventor not guilty after 23 hours of deliberation on testimony offered by state and defense on the charge that Mrs. Garvey defrauded Albert M. Schmitt, St. Cloud, of \$200.

Special Prosecutor Paul Ahles said he would confer with Attorney General Henry N. Benson immediately as to the advisability of bringing Mrs. Garvey to trial on three other charges named in an indictment returned against her last year. These include two counts of selling stock without a license and a grand larceny charge.

Witnesses at the trial testified that approximately \$48,000 was received by Mrs. Garvey during the three-year period in which she experimented to produce a cheap automobile fuel composed mostly of water. Most of this money, it was said, was invested by residents of St. Cloud.

Further indictments may be sought on as many as 200 additional individual transactions in connection with Mrs. Garvey's business, Ahles said.

Samples of the fuels produced by Mrs. Garvey, which she claimed were 95 per cent water and could be produced at two cents a gallon, but would supplant gasoline, were introduced as evidence in the trial. University of Minnesota chemists who analyzed the fuel said it was produced mainly of ethyl alcohol.

According to Mrs. Garvey's sales talks, witnesses said, the new formula was contained in little white pills which when added to water would run an automobile.

Defense attorneys claimed that Mrs. Garvey accepted investments in the scheme in good faith and actually worked at manufacturing the fuel.

CREDIT EXTENSION TO GERMAN BRINGS ON OPTIMISTIC TONE

By ELMER C. WALZER (United Press Financial Editor)

New York, June 25.—Extension of \$100,000,000 credit to Germany and further optimistic developments in the Hoover debt proposal brought out heavy buying on the stock exchange at the opening today.

Prices moved up fractions to more than a point and blocks of 5,000 to 38,300 shares came out at the opening.

McKesson & Robbins opened 38,300 shares at 9 1/4; Steel common 5,000 100 3/8 up 3/8; Lorillard 6,000 at 20 1/4 up 3/8; Packard 4,000 at 8 1/8 up 1/8; Radio-Keith-Orpheum 5,000 at 16 7/8 up 3/4; International Nickel 5,000 at 16 1/8 up 1/8; J. Railroad shares gained with the other groups, featured by Union Pacific which rose 2 points to 172. Rails were helped by regular dividend declarations yesterday by Baltimore & Ohio, Northern Pacific and Delaware & Hudson.

BATHROOM IS NOW 'HEALTH-ROOM'

Milwaukee, Wis., June 25.—(U.P.)—The bathroom is now the "health-room" and the plumber is a merchandiser who applied psychology to his business, appealing to women by every known method of sales persuasion. R. H. Mattison, Buffalo, N. Y., told the United States Master Plumbers convention today.

"I can remember," said Mattison, who is assistant to the organization president, "when the plumber was just a good mechanic who used his head largely to direct his hands."

"Now, by exchanging ideas at conventions, he has learned to be a business man. He plays golf, belongs to civic clubs, and joins social circles, so he may make contacts that will bring business."

The 3,000 plumbers attending the convention adopted a resolution pledging themselves to adhere to existing wage scales without reductions.

E. S. STAADT DROWNS WHILE IN SWIMMING

DIRECTOR OF DRAMATICS, U. OF M., VICTIM IN LAKE MINNETONKA

BODY WAS RECOVERED ABOUT AN HOUR AFTER THE ACCIDENT

Wayzata, Minn., June 25.—(U.P.)—Edward S. Staadt, 26, director of dramatics and assistant professor of speech at the University of Minnesota, was drowned today in Lake Minnetonka while swimming.

Staadt and four prominent University students were returning from a rehearsal of "L'Aiglon" at the summer cottage of one of the students. The play was to have been presented July 16 and 17 as part of the dramatic program of the university summer school session.

As the party was crossing a bridge between Gray's Bay and Wayzata, Staadt decided to go for a swim. While the others waited he walked down to the beach and swam out alone.

When about 100 yards from the shore he threw up his hands and shouted for help and then went under, the students said. Deputies from Wayzata and volunteers succeeded in recovering the body about an hour after the accident. It was said that Staadt was seized with cramps while swimming.

The students who were motoring with the faculty man were William Haggerty, Sheldon S. Bellis, Charlotte Larson and Lillian R. Hall. The drowning occurred about 1:30 A. M.

Staadt was a graduate of Northwestern University and had been associated with the University of Minnesota for four years. He wrote and adapted a number of plays which were produced by dramatic classes during the time he was connected with the University.

The body will be sent to Postville, Ia., where Staadt's family lives.

'DROWNED' WOMAN PURCHASED FOOD, MAY BE IN HIDING

SEARCHERS GO ABOUT DRAGGING RIVER IN LISTLESS MANNER

RIVER EFFORTS FAIL; AUTHORITIES GET TIP ON NEW ANGLE OF POHJOLA CASE

Half-hearted efforts were evident in the dragging of the Mississippi river this afternoon because there was the suspicion in the minds of the searchers that Mrs. George Pohjola did not drown herself but used this strategy to go in hiding for reasons of her own.

Sheriff Frank E. Little who has been supervising the dragging of the river said today that he was finding it difficult to gain volunteers to assist in the search because of this belief.

There does exist the possibility that Mrs. Pohjola at this time is safe at the home of friends she has taken into her confidence.

There was also the possibility expressed that Mrs. Pohjola may have wandered off into the woods and may still now be wandering aimlessly about the woods or has fallen exhausted to the ground.

The woman believed drowned was known to have a box of toast with her. What has happened to that food has not been learned.

Wm. E. Meyer, mechanic at Rosko Brothers garage and flier, son-in-law of Mrs. Pohjola, was following a course down the river this afternoon in an attempt to determine if the woman was drowned and in this way locate the body.

The Dispatch today followed up clues in the disappearance and supposed drowning of Mrs. Jennie Pohjola with the result that the newspaper learned that the woman had purchased some toast from a Southeast Brainerd store shortly before the time she was last seen on the banks of the Mississippi river.

On the other hand her daughter, Muista, who married last night said she believed that her mother had drowned, even though she was an adept at swimming. She had left a note to her children, Muista, 18 and Toisto 15, saying, "Now you kids, take care of yourself."

The note was sent through the mails postmarked Brainerd, June 24, and was received by Muista late yesterday afternoon.

Muista asserted that brooding over her husband's illness and financial difficulties may have unsettled her mind and prompted her to do away with herself.

Mrs. Pohjola had often told relatives and friends that her worries (Continued on Page 6, Column 1)

URGES AN ALIBI AGAINST CHARGE OF SLAYING 6

ELABORATE DEFENSE OF JAMES F. BANNON MAY BE BLASTED SOON

MRS. MARGARET ARMSTRONG SAW HIM IN OFFICE BUILDING AT WILLISTON, N. D.

Williston, N. D., June 25.—(U.P.)—An elaborate alibi which James F. Bannon hoped would free him of charges of murdering six members of the A. E. Haven family may be blasted today by testimony of Mrs. Margaret Armstrong, caretaker of the Hedderick Block offices here.

Prosecuting attorneys said that Mrs. Armstrong had become the state's most important witness when she identified Bannon as one of a trio of men who visited the office building on the day after the alleged murders. Her statements contradicted Bannon's account of his actions during the week of the slayings.

The bodies of the six members of the family were found partly decomposed in the Haven barn months after their mysterious disappearance. Charles Bannon was arrested and admitted the murders. The day before he was to have gone on trial he was lynched. His father returned from the west and is now being tried on murder charges at Crosby although he contends his son alone was to blame.

Mrs. Armstrong said that Bannon, his son, and a third man came to the Hedderick Block seeking Dr. Cochran on the day after that given for the slayings.

Both Bannons appeared nervous, Mrs. Armstrong said, and the other man twitted them. She said the doctor was not in and that after talking to her for some length of time the three left and did not return. Mrs. Armstrong said she was sure of identification of Bannon after viewing photographs.

The prosecution contends that the family was slain so that the Bannons could use their farm and obtain the profits.

BUSY WEEK END FOR GOVERNOR OLSON

St. Paul, Minn., June 25.—(U.P.)—Gov. Floyd B. Olson today laid plans for a speaking tour that will take him into central Minnesota over the week-end.

Saturday the governor will proceed to Brainerd where he will speak at the Crow Wing County Farm Bureau picnic. Olson will inaugurate the Central Minnesota Golf Tournament at Pine Beach later in the day and has promised to play one round. Sunday will be spent at an unannounced summer home of friends on a northern lake and the governor will return to his desk Monday.

W. D. Stewart, state game and fish commissioner, who will accompany the governor on the week-end trip, was expected to hold frequent conferences on the proposed shakeup in the game and fish department.

More than half of the 137 game wardens in the department are to be dropped.

Taylor Township Financial Affairs Investigated

Hines, Minn., June 25.—(U.P.)—Charges that present officials of Taylor township, Beltrami county, are responsible for the townships bankrupt financial condition were made today by W. R. Brush, Hines, a former official of the township.

Denying that present officials are donating their time to the township, Brush claimed that in spite of the township's poor financial condition, present officials charged \$6.80 each for acting as election officials to count the town's 62 votes.

Brush claimed that the time he left office all debts had been paid except the bond issue and there was \$462 in the township treasury.

Copenhagen, Denmark, June 25.—(U.P.)—Gloom was turned to wild joy tonight when news was received that the airplane Liberty, almost given up for lost, had made a safe landing in Krefeld, Germany.

The message announced that Otto Hillig and Holger Hoiris, the fliers, expected to resume their flight from Krefeld and reach here about 9 P. M.

The news of the landing at Krefeld created the greatest sensation in years. Thousands who had left the airport after an all-day wait, hurried back, and 15,000 were on hand to give the adventurers a stirring reception.

Flowers and wreaths which had been put away were brought out again. The mother of Hoiris received the news weeping with joy.

"I knew my son would succeed," she said. "I knew he would be safe." And she retrieved the bouquet of flowers she had cast aside when hope had been abandoned in Copenhagen, in order to prepare for the welcome she is sure will be his tonight.

Krefeld, Germany June 25.—Holger Hoiris and Otto Hillig in their trans-Atlantic plane Liberty landed here at 5:30 P. M. today.

Krefeld is in the Rhineland industrial region, 300 miles southwest of Berlin.

After a halt here of an hour, during which the plane was refueled, the Liberty took off again at 6:30 P. M. for Copenhagen.

When they landed here, they had been in the air 32 hours since leaving Harbor Grace yesterday morning.

They explained that they had been forced southward off their course and had flown over Spain and France.

The distance from Harbor Grace to Krefeld is roughly 2,800 miles, although the fliers probably covered much more by being driven off their course.

From Krefeld to Copenhagen is 380 miles. The fliers were expected to make it in about 3 1/2 hours, which would get them there about 3 P. M. CST.

POST AND GATTY LAND IN MOSCOW

Moscow, June 25.—The monoplane Winnie Mae, clipping off another 1,000 miles on its 15,000-mile flight over land and sea around the world, landed here at 5:40 P. M. from Berlin, completing one-third of their journey in less than three days.

The American, Wiley Post, and the Australian, Harold Gatty, speeding on with a determination to set a record by circumnavigating the globe in less than 10 days, left Berlin at 7:30 A. M. (1:38 A. M. EST.)

After halting here to refuel, the fliers planned to push on to their next scheduled halt, Irkutsk, on Lake Baikal in the mountains of northeastern Siberia. Irkutsk is 2,600 miles from Moscow, the longest single jump the fliers have attempted so far.

At an average speed of 140 miles an hour, the trip would take more than 18 hours.

When they reached Moscow, the fliers had covered 5,000 miles from New York, or one-third of their journey around the world.

The flight from Berlin was made in eight hours and two minutes, the plane landing here at 8:40 A. M. CST.

The fliers were made officially welcome to Russia. They were awaited at the airfield by a large group of (Continued on page 6, column 3)

Milwaukee, Wis., June 25.—(U.P.)—The bathroom is now the "health-room" and the plumber is a merchandiser who applied psychology to his business, appealing to women by every known method of sales persuasion. R. H. Mattison, Buffalo, N. Y., told the United States Master Plumbers convention today.

"I can remember," said Mattison, who is assistant to the organization president, "when the plumber was just a good mechanic who used his head largely to direct his hands."

"Now, by exchanging ideas at conventions, he has learned to be a business man. He plays golf, belongs to civic clubs, and joins social circles, so he may make contacts that will bring business."

The 3,000 plumbers attending the convention adopted a resolution pledging themselves to adhere to existing wage scales without reductions.

SEARCHERS GO ABOUT DRAGGING RIVER IN LISTLESS MANNER

RIVER EFFORTS FAIL; AUTHORITIES GET TIP ON NEW ANGLE OF POHJOLA CASE

Half-hearted efforts were evident in the dragging of the Mississippi river this afternoon because there was the suspicion in the minds of the searchers that Mrs. George Pohjola did not drown herself but used this strategy to go in hiding for reasons of her own.

Sheriff Frank E. Little who has been supervising the dragging of the river said today that he was finding it difficult to gain volunteers to assist in the search because of this belief.

There does exist the possibility that Mrs. Pohjola at this time is safe at the home of friends she has taken into her confidence.

There was also the possibility expressed that Mrs. Pohjola may have wandered off into the woods and may still now be wandering aimlessly about the woods or has fallen exhausted to the ground.

The woman believed drowned was known to have a box of toast with her. What has happened to that food has not been learned.

Wm. E. Meyer, mechanic at Rosko Brothers garage and flier, son-in-law of Mrs. Pohjola, was following a course down the river this afternoon in an attempt to determine if the woman was drowned and in this way locate the body.

The dispatch today followed up clues in the disappearance and supposed drowning of Mrs. Jennie Pohjola with the result that the newspaper learned that the woman had purchased some toast from a Southeast Brainerd store shortly before the time she was last seen on the banks of the Mississippi river.

On the other hand her daughter, Muista, who married last night said she believed that her mother had drowned, even though she was an adept at swimming. She had left a note to her children, Muista, 18 and Toisto 15, saying, "Now you kids, take care of yourself." The note was sent through the mails postmarked Brainerd, June 24, and was received by Muista late yesterday afternoon.

Muista asserted that brooding over her husband's illness and financial difficulties may have unsettled her mind and prompted her to do away with herself.

Mrs. Pohjola had often told relatives and friends that her worries (Continued on Page 6, Column 1)

When about 100 yards from the shore he threw up his hands and shouted for help and then went under, the students said. Deputies from Wayzata and volunteers succeeded in recovering the body about an hour after the accident. It was said that Staadt was seized with cramps while swimming.

The students who were motoring with the faculty man were William Haggerty, Sheldon S. Bellis, Charlotte Larson and Lillian R. Hall. The drowning occurred about 1:30 A. M.

Staadt was a graduate of Northwestern University and had been associated with the University of Minnesota for four years. He wrote and adapted a number of plays which were produced by dramatic classes during the time he was connected with the University.

The body will be sent to Postville, Ia., where Staadt's family lives.

NAUTILUS TO BE OVERHAULED AT PLYMOUTH, ENGLAND

Cork, Ireland, June 25.—(U.P.)—The submarine Nautilus, towed by a tug, proceeded today for Plymouth, Eng., to be overhauled.

The Nautilus, carrying Sir Hubert Wilkins on a projected trip under the ice to the North Pole, arrived here from the United States, towed by the U. S. S. Wyoming. It broke down in mid-Atlantic but was rescued by the American warship and brought to port.

URGES AN ALIBI AGAINST CHARGE OF SLAYING 6

ELABORATE DEFENSE OF JAMES
F. BANNON MAY BE
BLASTED SOON

MRS. MARGARET ARMSTRONG
SAW HIM IN OFFICE BUILDING AT WILLISTON, N. D.

Williston, N. D., June 25.—(U.P.)—An elaborate alibi which James F. Bannon hoped would free him of charges of murdering six members of the A. E. Haven family may be blasted today by testimony of Mrs. Margaret Armstrong, caretaker of the Hedderick Block offices here.

Prosecuting attorneys said that Mrs. Armstrong had become the state's most important witness when she identified Bannon as one of a trio of men who visited the office building on the day after the alleged murders. Her statements contradicted Bannon's account of his actions during the week of the slayings.

The bodies of the six members of the family were found partly decomposed in the Haven barn months after their mysterious disappearance. Charles Bannon was arrested and admitted the murders. The day before he was to have gone on trial he was lynched. His father returned from the west and is now being tried on murder charges at Crosby although he contends his son alone was to blame.

Mrs. Armstrong said that Bannon, his son, and a third man came to the Hedderick Block seeking Dr. Cochran on the day after that given for the slayings.

Both Bannons appeared nervous, Mrs. Armstrong said, and the other man twitted them. She said the doctor was not in and after talking to her for some length of time the three left and did not return. Mrs. Armstrong said she was sure of identification of Bannon after viewing photographs.

The prosecution contends that the family was slain so that the Bannons could use their farm and obtain the profits.

BUSY WEEK END
FOR GOVERNOR OLSON

St. Paul, Minn., June 25.—(U.P.)—Gov. Floyd B. Olson today laid plans for a speaking tour that will take him into central Minnesota over the week-end.

On Friday the governor will take part in a review and inspection of the 125th and 151st Field Artillery at Camp Ripley, national guard camp.

Saturday the governor will proceed to Brainerd where he will speak at the Crow Wing County Farm Bureau picnic. Olson will inaugurate the Central Minnesota Golf Tournament at Pine Beach later in the day and has promised to play one round. Sunday will be spent at an unannounced summer home of friends on a northern lake and the governor will return to his desk Monday.

W. D. Stewart, state game and fish commissioner, who will accompany the governor on the week-end trip, was expected to hold frequent conferences on the proposed shakeup in the game and fish department.

More than half of the 137 game wardens in the department are to be dropped.

Taylor Township Financial
Affairs Investigated

Hines, Minn., June 25.—(U.P.)—Charges that present officials of Taylor township, Beltrami county, are responsible for the townships bankrupt financial condition were made today by W. R. Brush, Hines, a former official of the township.

Denying that present officials are donating their time to the township, Brush claimed that in spite of the township's poor financial condition, present officials charged \$6.80 each for acting as election officials to count the town's 62 votes.

Brush claimed that the time he left office all debts had been paid except the bond issue and there was \$462 in the township treasury.

When they landed here, they had been in the air 32 hours since leaving Harbor Grace yesterday morning.

They explained that they had been forced southward off their course and had flown over Spain and France.

The distance from Harbor Grace to Krefeld is roughly 2,800 miles, although the fliers probably covered much more by being driven off their course.

From Krefeld to Copenhagen is 380 miles. The fliers were expected to make it in about 3 1/2 hours, which would get them there about 3 P. M. CST.

POST AND GATTY
LAND IN MOSCOW

Moscow, June 25.—The monoplane Winnie Mae, clipping off another 1,000 miles on its 15,000-mile flight over land and sea around the world, landed here at 5:40 P. M. from Berlin, completing one-third of their journey in less than three days.

The American, Wiley Post, and the Australian, Harold Gatty, speeding on with a determination to set a record by circumnavigating the globe in less than 10 days, left Berlin at 7:30 A. M. (1:38 A. M. EST).

After halting here to refuel, the fliers planned to push on to their next scheduled halt, Irkutsk, on Lake Baikal in the mountains of northeastern Siberia. Irkutsk is 2,600 miles from Moscow, the longest single jump the fliers have attempted so far.

At an average speed of 140 miles an hour, the trip would take more than 18 hours.

When they reached Moscow, the fliers had covered 5,000 miles from New York, or one-third of their journey around the world.

The flight from Berlin was made in eight hours and two minutes, the plane landing here at 8:40 A. M. CST.

The fliers were made officially welcome to Russia. They were awaited at the airfield by a large group of (Continued on page 6, column 3)

Consider your Adam's Apple!! Don't Rasp Your Throat With Harsh Irritants

"Reach for a
LUCKY instead"

Touch your Adam's Apple with your finger. You are actually touching your larynx—this is your voice box—it contains your vocal cords. When you consider your Adam's Apple, you are considering your throat—your vocal chords.

When a lawyer makes a statement before a jury he backs it up with sound evidence and facts. Here are the facts.

Certain harsh irritants, present in all raw tobaccos—which are expelled by LUCKY STRIKE'S exclusive "TOASTING" Process—are sold by us to manufacturers of chemical compounds. In other words, the removal of these irritants in the manufacture of LUCKY STRIKE is not a mere laboratory procedure for the purpose of getting an advertising phrase—it is a definite and vitally important process in rendering LUCKY STRIKE Cigarettes less irritating than other cigarettes. Remember—LUCKY STRIKE comes to you after certain harsh irritants present in all raw tobaccos have been expelled through the exclusive "TOASTING" Process. No wonder LUCKIES are always kind to your throat. Be careful in your choice of cigarettes.

Military Band Music

THE concert given by the 125th Artillery band at Gregory park last evening attracted an immense crowd. Citizens of Brainerd were of course largely represented and added to this attendance was the presence of many tourists from the lake country.

Col. Elmer McDevitt, commander of the 125th Artillery, was present with his staff and gave the event official recognition. He and the other officers from Camp Ripley were highly pleased with the reception accorded the band and believed it highly instrumental in effecting pleasant relations between camp and townspeople.

Tonight the city and lake country extend a similar welcome to the 151st Artillery band. Another large attendance of music lovers is expected. The bands are both of such high order and fine musicianship that it is difficult to decide which, if any, is the better. Both have extensive repertoires and are ably directed. The 125th is from Duluth, the 151st from Minneapolis.

JUSTO SUAREZ AND BILLY PETROLLE MIX UP TONIGHT

SOUTH AMERICAN HAS HOPES OF WINNING A CHAMPIONSHIP

FAIR RECOGNIZED AS FORE- MOST CONTENDERS FOR LIGHTWEIGHT HONORS

New York, June 25.—(U.P.)—Justo Suarez's hope of becoming the first South American to win a world's boxing championship will be put to a severe test tonight when the Argentine lightweight meets Billy Petrolle of Fargo, N. D., in a 10-round bout at Madison Square Garden.

Petrolle and Suarez are recognized as the foremost contenders for lightweight honors and the winner of tonight's contest virtually is assured of meeting Champion Tony Canzoneri in a little bout during the current outdoor season. A victory for Suarez also would put the Argentine in line for a highly profitable catchweight match with Jimmy McLarnin, ranking welterweight contender, who recently defeated Petrolle.

Suarez is regarded as the most capable fighter produced in South America since boxing was introduced to that continent 14 years ago and appears likely to better the records of Luis Firpo, Luis Vincentini and Stanislaus Loyza, each of whom fought their way to world championship contests and barely missed winning titles for South America.

Dave Ordway, wealthy, young aviator, lands his disabled plane in the Florida orange grove owned by Joan Marbury. Joan and her cousin, Sally, alone on the plantation, have great difficulty in running the place, due to the interference of Mueller, their disreputable neighbor. When Dave refuses Mueller's demand of \$2,000 for the damage to his property, crashing through the trees to his landing on the Marbury plantation, Mueller holds him up and relieves him of \$850 threatening to collect more. That night Mueller sets fire to Dave's plane. Rushing to the scene, Dave encounters Mueller. A quarrel ensues. Joan rescues Dave. Under Sally's care, Dave recovers from the effects of his fight. Though attracted to Sally he admires the reserved Joan's courage. Sally, anxious to return north for a good time, urges Joan to accept Dave's offer to purchase the plantation. Joan tells of the "accidents" to the property following her repulsion of Mueller's advances. Dave receives an unexpected visit from his former fiancée, Barbara Holworthy, and his friends, Gerry Flemming and Talbot Henderson.

CHAPTER XI.

GERRY, immaculately clad in brown camel-hair jacket and flannel slacks, stared at the ebullient Talbot with a jaundiced eye. It had been Talbot's fault that Gerry had been forced to leave his great yacht. And whenever Gerry was ashore, he was more than usually morose. He would have gone to the ends of the earth to fetch and carry for the adventure-loving Dave, but he would have complained bitterly while doing it. But then, Gerry always complained. He complained even when Dave, Talbot and a score of friends were cruising the seven seas with him in spite of the fact that he was utterly happy in their company, especially with a rolling deck under his feet. The *Restless* was the only home he had, although he could have afforded a dozen. So much did he love his great white ship, with its crew of fifty and its guest accommodations for thirty, that he almost forgot to complain about the staggering bills that drifted in with every mail.

Vanity's Lesson

Joan, quiet and dignified, entered the room and smiled understandingly as she met Dave's embarrassed gaze.
"Where's Barbara?" demanded Talbot.
"I want to eat."
At that moment Hannah waddled through the kitchen door and in a stage whisper that penetrated to the farthest corner of the room, hissed:
"Mis' Joan, dat omelette gwine fall flatter'n a pancake if'n y'awl don't set down."
"Babs!" shouted the irrepressible Talbot in a voice that caused the water to tremble in the glasses.
"Coming, darling." Her voice filtered down from the stairway, calm and unharmed.
"Let's teach her a lesson," snapped Gerry, peering at his hostess through his thick-lensed glasses. "Never on time. Never."
In cheerful disregard for the conventions, he and Talbot pulled out chairs for Joan and Sally who,

after an instant's hesitation, sat down. Then they seated themselves and fell upon the fruit cocktail unabashed. Talbot, whose well-filled pounce suit testified to his complete disregard for the calorific, eyed Barbara's cocktail until Dave firmly pushed it out of arm's reach.

"I'm still hungry, Miss Marbury," declared Talbot, winking significantly toward the kitchen.
Joan's eyes met Dave's in mute interrogation. He grinned mischievously and nodded. She gave the signal and Hannah entered behind a huge blue platter, upon which was a fluffy golden omelet so fragrant and appetizing that the flyer almost forgot he had just eaten.

A Tense Moment

Then Barbara made her appearance, exquisitely beautiful in a soft daffodil-yellow gown. Her

burnished coppery hair was moulded to her small head in shining waves. Her eyes, as she paused in the arched doorway, were deep green pools of anger. They were insolent, challenging, meeting Dave's with mocking self-assurance.

The flyer's breath caught in his throat as he rose from his chair. Yet even as he marveled at the beauty of her, he was conscious of a sudden flood of resentment that she should have dressed for dinner with such patent care. He saw her eyes, rapier-like, clash with those of the silent Joan, who was regarding her coolly, impersonally, as she waited for her guest to come to the table. Sally, still seated, was staring at Barbara with downright hostility, two bright spots of angry color on her delicately tanned cheeks.
Talbot, whose restless eyes were not as unobserving as they looked, was instantly aware of the undercurrent of antagonism between the girls.

When all had been seated, he turned to Dave, whose smouldering gaze was still fixed upon Barbara.

"Now, old-timer," he said, "the pangs of hunger that made a roaring lion out of a purring tabby have been partially assuaged, so I'm ready to listen to your alibi with as straight a face as possible.

I really wouldn't bother with it, but I know you've thought up a good story and I'd hate to disappoint you."

"Personally," yawned Barbara, "I think it would be something of a bore. It is obvious that he has just been fighting again, which is nothing to get bothered about. It is equally obvious that he has had excellent care. So why not talk about something interesting?"

"Cat!" said Gerry dispassionately.

"Pipe down, Babs," said Talbot. "This is one of your off nights. It was a disaster to have brought you. All right, Dave, let's have your confession. Where did you get the puffed right cheek and the mouse over the left eyebrow? Why do you curse silently when you raise your left hand? Why do you lean forward as though you were all wrapped up in a plaster cast? In short, who has been in-

itiating you into what kind of a rough-neck society?"

So he told them, beginning with his impulsive decision to fly over to the East Coast and ending with the fearful beating he had received at the hands of Mueller and his assistant.

Anxious For Battle

Gerry and Talbot forgot to eat as they listened to his casually told story. Barbara, who paid careful attention while he spoke of a suddenly remembered engagement at Palm Beach and while he described his unexpected meeting with Sally and Joan, lost interest when he began to tell of his fight with Mueller. Dave, some fifteen years ago, had caused a Bar Harbor scandal by thrashing curly-headed Reggie Van Worth at dancing school because the heir to the Van Worth millions had tried to elbow him out of line during a German. Since that day, Dave's fights had varied only in detail and Barbara saw no reason to be amused. When he concluded his story, there was a long silence.

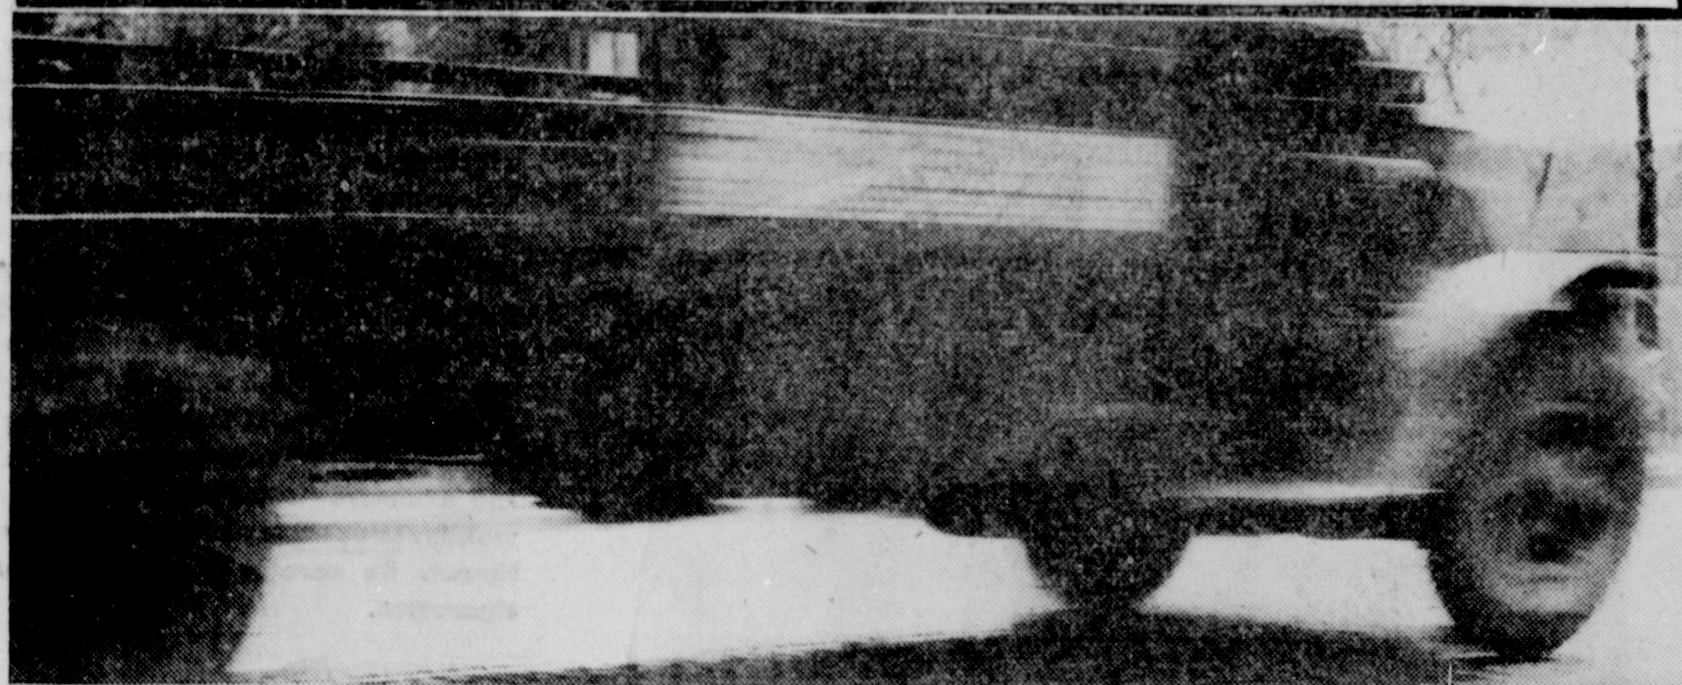

Presently Gerry peered around the room through his thick-lensed spectacles.

"Dave," he said, "let's go smack this Mueller."

"I had not intended to leave," said Dave, "before kissing him good-bye."

Military Band Music

The concert given by the 125th Artillery band at Gregory park last evening attracted an immense crowd. Citizens of Brainerd were of course largely represented and added to this attendance was the presence of many tourists from the lake country.

Col. Elmer McDevitt, commander of the 125th Artillery, was present with his staff and gave the event official recognition. He and the other officers from Camp Ripley were highly pleased with the reception accorded the band and believed it highly instrumental in effecting pleasant relations between camp and townspeople.

Tonight the city and lake country extend a similar welcome to the 151st Artillery band. Another large attendance of music lovers is expected. The bands are both of such high order and fine musicianship that it is difficult to decide which, if any, is the better. Both have extensive repertoires and are ably directed. The 125th is from Duluth, the 151st from Minneapolis.

JUSTO SUAREZ AND BILLY PETROLLE MIX UP TONIGHT

SOUTH AMERICAN HAS HOPES
OF WINNING A CHAMPIONSHIP

PAIR RECOGNIZED AS FORE-
MOST CONTENDERS FOR
LIGHTWEIGHT HONORS

New York, June 25.—(U.P.)—Justo Suarez's hope of becoming the first South American to win a world's boxing championship will be put to a severe test tonight when the Argentine lightweight meets Billy Petrolle of Fargo, N. D., in a 10-round bout at Madison Square Garden.

Petrolle and Suarez are recognized as the foremost contenders for lightweight honors and the winner of tonight's contest virtually is assured of meeting Champion Tony Canzoneri in a title bout during the current outdoor season. A victory for Suarez also would put the Argentine in line for a highly profitable catchweight match with Jimmy McLarnin, ranking welterweight contender, who recently defeated Petrolle.

Suarez is regarded as the most capable fighter produced in South America since boxing was introduced to that continent 14 years ago and appears likely to better the records of Luis Firpo, Luis Vincentini and Stanislaus Loayza, each of whom fought their way to world championship contests and barely missed winning titles for South America.

A bouncing baby girl arrived at the home of Mr. and Mrs. Earnest Dorsette.

The heavy rain of Friday greatly interfered with the Farm Unit meeting called for that evening at Gordon school house, however an enjoyable social time was had and a nice lunch served. It was given out that much of the program intended for that night would be given at the next meeting, July 14 and that a speaker for that evening secured.

Mrs. E. Dorsette made a trip to the Cities the last of the week with the family of Crist Erickson.

Erick Johnson of North Long Lake had quite a mishap the past week. He had left a team in the field for a few moments when they took fright and started on the run toward town on No. 19. Mr. Johnson and his son took after them with the auto and on alighting from the car was thrown to the pavement, suffering cuts on his head and other bruises.

Mrs. Wedlock of Aitkin is visiting this week at the home of her sister, Mrs. Clarence Skillings.

Miss Irene Britton and Anthony Jordan were quietly married by Rev. Walter Smith Saturday afternoon. A large company of friends and relatives gathered at the home of the groom for a wedding dinner and general good time. Everybody extends congratulations and best wishes to the happy pair.

GILBERT LAKE

A bouncing baby girl arrived at the home of Mr. and Mrs. Earnest Dorsette.

The heavy rain of Friday greatly interfered with the Farm Unit meeting called for that evening at Gordon school house, however an enjoyable social time was had and a nice lunch served. It was given out that much of the program intended for that night would be given at the next meeting, July 14 and that a speaker for that evening secured.

Mrs. E. Dorsette made a trip to the Cities the last of the week with the family of Crist Erickson.

Erick Johnson of North Long Lake had quite a mishap the past week. He had left a team in the field for a few moments when they took fright and started on the run toward town on No. 19. Mr. Johnson and his son took after them with the auto and on alighting from the car was thrown to the pavement, suffering cuts on his head and other bruises.

Mrs. Wedlock of Aitkin is visiting this week at the home of her sister, Mrs. Clarence Skillings.

Miss Irene Britton and Anthony Jordan were quietly married by Rev. Walter Smith Saturday afternoon. A large company of friends and relatives gathered at the home of the groom for a wedding dinner and general good time. Everybody extends congratulations and best wishes to the happy pair.

The cross road between Beaver Dam road and No. 19 is being repaired and graded. This is a much needed improvement, as the road is in bad condition and is about the only road connecting the east and west portions of the township. C. Skillings is doing this work.

'DROWNED' WOMAN PURCHASED FOOD, MAY BE IN HIDING

were "getting on her nerves" and that she was tired and would like to get a rest.

She had lost weight considerably since her husband, George, had taken sick last November, and since last fall is now confined at the N. P. B. A. hospital at St. Paul where he is reported improving from paralysis.

Less than a year ago Mrs. Pohjola weighed 165 pounds. Now she weighs 106 pounds.

Muista said today that she saw her mother the last time up town in the morning. She said she did not believe particularly, until late in the evening, when her mother failed to return home from work, that anything was amiss. She positively identified the coat, hat and petticoat, found on the bank of the Mississippi river, as having been last worn by her mother.

Muista did say that one time previously her mother had failed to appear home and that upon questioning she stayed the night with friends in Deerwood. The same friends were called, but they had seen nothing of her recently.

The Nordstrom's store, 1618 Oak street, was interviewed this morning by the Dispatch and it was learned that Mrs. Pohjola had been in the store at 10 a. m. Tuesday, and had paid 13 cents for a package of toast. It was learned she acted strangely as if something was on her mind, had left the store, ran up an alley, returning across the street, and had gotten into a car which took her up town.

Despite continuous dragging operations in the Mississippi river and Boom Lake no trace of the body has been found. Both river and lake contain springs and the bottom is obscured and mucky, and it is very easy for a body to drop down below the surface out of sight.

Mrs. Pohjola has brown eyes, brown hair, reddish complexion, and red cheeks. She wore her long hair folded on the back of her head. She had a permanent which left her hair wavy. She was 5 feet 1 inch in height, very thin and frail, weighing only 106 pounds. She was nervous and her hands and her body trembled at times.

In her face one noticed lines of care and worry.

She last wore an apron dress, of black and white color. Her hat was brown straw trimmed with flowers. Her coat was black, with light colored collar and cuffs. The coat, hat and white petticoat found on the banks of the river, are now at the police station. The tablet she carried was also found and is at the station. She carried a black leather container with keys to various places she was working at.

"LOST" FLIERS LAND IN GERMANY

(Continued from Page 1)

American and Russian reporters and officials. The Osceviakhin, Soviet air ministry, instructed all points along the route to facilitate the refueling of their plane and give other assistance. Shortly before they were due here, two Soviet planes took off to escort them in.

The fliers tentatively set 1 A. M. for their departure. Their first words on landing were: "When do we leave here?"

They wore civilian clothes and looked fresh despite eight hours of continuous flying in bad weather. When

they came down after circling the field they alighted smiling and explained they had bucked a head wind and fog most of the way to Moscow.

Long Beach, Calif., June 25.—Chas. Rochville, former navy flier, and Glenn Kerchner, cameraman, took off from the municipal airport at 9 A. M. today for Detroit on the first lap of a flight which they hope will carry Commander Donald B. MacMillan to Labrador, Iceland and Baffin Land.

Maj. Gen. W. G. Everson to Inspect Camp Ripley Friday

St. Paul, June 25.—(UP)—Major General William C. Everson, chief of the militia bureau will arrive in St. Paul at 9 a. m. Saturday to inspect the thirty-fourth division aviation in

training at Holman Municipal airport. Late Saturday Major Ray Miller will take Everson to Chicago by plane. Everson will inspect the national guard camp, Camp Ripley, Friday.

In her face one noticed lines of care and worry.

She last wore an apron dress, of black and white color. Her hat was brown straw trimmed with flowers. Her coat was black, with light colored collar and cuffs. The coat, hat and white petticoat found on the banks of the river, are now at the police station. The tablet she carried was also found and is at the station. She carried a black leather container with keys to various places she was working at.

"LOST" FLIERS LAND IN GERMANY

American and Russian reporters and officials. The Osoaviakhin, Soviet air ministry, instructed all points along the route to facilitate the refueling of their plane and give other assistance.

Shortly before they were due here, two Soviet planes took off to escort them in.

The fliers tentatively set 1 A. M. for their departure. Their first words on landing were: "When do we leave here?"

They wore civilian clothes and looked fresh despite eight hours of continuous flying in bad weather. When

they came down after circling the field they alighted smiling and explained they had bucked a head wind and fog most of the way to Moscow.

Long Beach, Calif., June 25.—Chas. Rocheville, former navy flier, and Glenn Kerchner, cameraman, took off from the municipal airport at 9 A. M. today for Detroit on the first lap of a flight which they hope will carry Commander Donald B. MacMillan to Labrador, Iceland and Baffin Land.

Maj. Gen. W. G. Everson to Inspect Camp Ripley Friday

St. Paul, June 25.—(UP)—Major General William C. Everson, chief of the militia bureau will arrive in St. Paul at 9 a. m. Saturday to inspect the thirty-fourth division aviation in

training at Holman Municipal airport. Late Saturday Major Ray Miller will take Everson to Chicago by plane. Everson will inspect the national guard camp, Camp Ripley, Friday.
